# LifeBook S7110

- 14.1" Intel<sup>®</sup> Centrino<sup>®</sup> Duo LifeBook at about 1.8kg\*
- Health and Environment friendliness with RoHS compliance<sup>8</sup>
- Superior security<sup>6</sup> features for enhanced data and hardware protection
- · Hot-swappable modular bay device options for ultimate flexibility
- Hassle-free VoIP communications using built-in microphone

\* with weight saver option

It is natural for all thin-film transistor (TFT) liquid crystal displays (ILCD) to show a small number of missing or discolored dots. These are commonly known as non-conforming pixels. This is a technology limitation of TFT LCD and does not represent a defect. Fujitsu warranty does not cover limitations in technology such as non-conforming pixels.

Specifications reflected above are engineering and hardware specifications. They do not represent actual usage or operating dimensions, sizes, performances and weights as these are dependent on factors such as operating temperature, type of operating system and application used, connected devices and accessories as well as hardware configurations of the notebook.
